

MRApeel™
Micro-Infusion Rolling Abrasion

**REPAIR
HYDRATE
CLARIFY
NOURISH**

MIRApeel™ by MIRamedtech

UG CE MARKUNIQUE **FRACTIONAL TRANSBRASION™** transdermal delivery system using cosmeceuticals with **MIRArrollers** creates thousands of micro-channels for non-invasive, safe and dramatic anti-aging treatment and for most common skin conditions. **MIRArrollers™** powerful LED lights complete each treatment to enhance clinical outcomes.

First 4th Generation MDS (microdermabrasion) technology

1. **FRACTIONAL TRANSBRASION™**: micro-channel transdermal delivery of proprietary cosmeceuticals
2. Controlled Skin Abrasion
3. Full spectrum LED light therapy completes each treatment for better outcomes.

Why MIRApeel™ is unique?

- MIRApeel™ **FRACTIONAL TRANSBRASION™**
- The safest, most versatile micro-needling technology [www. MIRAroller.com](http://www.MIRAroller.com)
- with concurrent infusion of cosmeceuticals.
- Significantly enhances delivery and effectiveness of skincare products.
- Improved, deeper penetration down to the DE junction.

- Stimulates wound-healing and treats bacterial infections.
- Increases micro-circulation, induces collagen production
- Non-Invasive! No pain! No blood!
- Reduces wrinkles and erases fine lines, tightens skin, reduces pore size.
- Light Emitting Diode phototherapy improves wound-healing.
- LED light is known for its inflammatory and antibacterial properties.

UNIQUE combination of 5 Synergistic Clinically Proven Technologies

1 - Cupping

A versatile tool for a soothing deep tissue massage AND a detoxifying lymphatic drainage treatment for lasting skin health.

2- MIRAbrador™

A unique design for controlled exfoliation and evacuation with simultaneous infusion into the skin.

3- MIRAFrac™

A fractional Bio-Infusion head with varying needle depth to actively create micro-channels which helps improve the infusion of the Advanced Bio-Active Serums into the skin.

4- MIRACurrent

The latest microcurrent technology that uses microamps to mimic the body's natural electrical current and re-educate, tone, hydrate, and revitalize the skin.

5- LED Light

(Red, Green and Blue) The application of LED Light completes the unique process to produce a spectacular result; Fresh, Firm and Radiant

Detoxify

Exfoliate and Evacuate
